(54) Title: PALPOMETER AND METHODS OF USE THEREOF

(57) Abstract: Dolorimeters and methods of use thereof are provided. The dolorimeters (10) comprise an integral apparatus having sensor means (19) having a property which varies according to pressure or force applied to the means and a reporter means (22). The dolorimeter can be worn on a finger or thumb of a practitioner and allows for quantification of pressure or force applied to a patient. The reporter may send an audible, light or radio signal. The dolorimeter is further provided with means for calibration and an initiator to initiate the calibration.
